

GLADE GROENSAGER A/S - ENGELSK

Founded in 2001

Glade Groensager A/S was founded in 2001 and today has more than 170,000 m² of production area, which is located on Funen in Stige, Otterup and Fangel.

Our Mission

Our mission is to provide high quality products with health and sustainability as the fundamental elements. Glade Groensager is Denmark's largest producer of cucumbers and tomatoes, and we sell to all Danish retail stores.

Slogan

Our slogan: "- a slice of a better environment..." can be found in all aspects of operations in the greenhouses, where we constantly work to reduce pollution and CO2 emissions. In our production of tomatoes and cucumbers, both conventional and organic, we use bumblebees for pollination and beneficial animals for biological pest control, which means our products are free of pesticides.

Values

Glade Groensager is passion, dedication, and pride.

Conditions of employment

At Glade Groensager, we follow GLS-A collective union agreement.

Professional qualifications

- Experience from the horticultural industry is an advantage.
- Experience in handling machines is an advantage.
